

# enduro CASE STUDY

## PROJECT NAME:

Westlake Chemicals  
Chlor-Alkali Expansion

## ENGINEERING FIRMS:

CDI Engineering

Chlorine Engineers Corp. LTD

## CONTRACTOR:

MMR Group

## DISTRIBUTOR:

Wholesale Electric Supply  
Prairieville, LA

## ENDURO PRODUCTS:

FRP Ladder Tray

FRP Cable Tray

## VALUE:

\$1 Million

## APPLICATION SUMMARY

The contractor initially purchased and received Asian manufactured ladder and instrument tray for the project. During the initial installation phase, the Asian ladder and cable tray failed to meet the customer's requirements and was subsequently rejected. Westlake tasked their electrical contractor, MMR, to locate a high quality tray manufacturer that could help resolve the urgent supply challenge.

## SOLUTION

Enduro met Westlake Chemical's needs by manufacturing and delivering over 35,000 lineal feet of cable and ladder tray within the requested turnaround times. Enduro also met all performance and material quality standards specified by the end user and the engineering firm.
