At Creative Composites Group, we are committed to the health and safety of our customers, employees, and the environment. As part of this commitment, we have prohibited the use of PFAS (perfluoroalkyl and polyfluoroalkyl substances) in our pultruded and molded products.

We are committed to providing high-quality products that do not compromise the well-being of our customers or the planet. We will continue to monitor developments in materials science and environmental safety to ensure that our practices remain aligned with the latest research and regulations.

Sincerely,

Nathan P. Young
